

World-class institution. World-class outcomes.

Study at a university that is a world leader in a range of academic programs and is known for strengths in science, engineering and technology, maritime studies, business, law and health sciences.

Our strong connections with local and national industry provide our students with practical learning and research opportunities. We offer more than 100 undergraduate (bachelor) degrees, and more than 150 postgraduate programs from Masters through to research PhD programs.

The University of Tasmania is Australia's fourth oldest university. It is ranked in the top two per cent of universities worldwide¹ and is the 11th ranked research university in Australia². We provide students with the benefits of smaller classes, personalised attention and ready access to lecturers and tutors. Our exceptional facilities, regional location and international reputation for excellence make a degree from the University of Tasmania a truly global asset.

118

Our world ranking in the 200 most international universities of 2016³.

117 Countries

Our partners are all around the globe.

\$153 Million

Research funding and contract income in 2014*.

147 Countries

Where our students come from*.

36,000+

Students currently enrolled at the University of Tasmania, including approx. 4,300 onshore international students.

291

Our world ranking - 2015 Times Higher Education.

16 of 21

The number of our research fields which were rated above world-standard by the Australian Research Council in 2015.

~ 25%

The number of international students currently studying under the Tasmanian International Scholarship (TIS).

109

The number of Rhodes Scholars we've produced since 1904*.

96,000+

The number of students who have graduated from the University since 1890*.

16%

Percentage of our students who come from overseas*.

126 YEARS

How long we have been educating students for the future.

Why study at the University of Tasmania?

Whether you are looking for an affordable degree from a highly ranked institution or want to study in a beautiful, safe environment where you can master your English language skills there are many reasons to choose study at the University of Tasmania.

1. Academic and Teaching Excellence

The University of Tasmania is highly placed in all four major international rankings:

- 291 and joint tenth among Australian universities in The 2015 Times Higher Education (THE) world university rankings;
- 379 in the QS rankings (2015/2016), including top 100 rankings for Earth and Marine Sciences, top 150 for Agriculture and Forestry and Sociology and top 200 for Geography, Environmental Science and Law;
- 305 in the 2015 Academic Ranking of World Universities (ARWU); and
- 366 in US News (2016), including 76 in Plant and animal Science, 84 in Geosciences and 136 in Environment/Ecology.

The 2016 Good Universities' Guide awarded us with a five star rating for research intensity and student retention placing us amongst the best in Australia.

2. Graduate Outcomes

In the Graduate Salaries Survey 2014, the University of Tasmania has excelled again with an average graduate salary of \$ \$50,289, placing it within the Top 20 of Australian universities³. In a number of discipline areas (pharmacy, marine engineering, agricultural science and others) our graduates achieve near 100% employment outcomes.

Internships and work integrated learning are built into many courses and our lecturers have real-world experience in the subjects they teach bringing strong connections with local and national industry and opportunities for practical learning and research opportunities.

With a curriculum focused on developing multidisciplinary knowledge and skills, as well as global perspective and social responsibility, our graduates are equipped and inspired to respond to opportunities and challenges in an ever changing world.

3. Competitive fees and living costs

Studying with us is also a financially sound choice. Although we are a top Australian university, our tuition fees are significantly lower than comparable mainland universities. Hobart and Launceston are the most affordable university cities 'down under'⁴ and studying with us means less financial pressure allowing you to focus on your studies and experience the unique lifestyle and environment Tasmania offers.

4. Accessible, Comprehensive Scholarships

We know that many people applying to University have not yet realised their potential and that with the right support and environment good students can become great graduates and researchers. All applicants to UTAS are automatically assessed for our flagship Tasmanian International Scholarship (TIS) with approx. one quarter of course work students securing this generous 25% scholarship for the duration of their degree⁵. We also offer 10% scholarships to siblings of previous UTAS students and students who transition from foundation studies to degree or from Undergraduate to postgraduate study. There is also a range of faculty specific scholarships and once enrolled for one semester, international students have access to a wide range of UTAS scholarship and prizes.

5. English language outcomes

An overwhelmingly English speaking environment both on and off campus where you can improve your English, academic performance and employability and career prospects.

6. Access to all the benefits of regional living and study

In an increasingly overpopulated, polluted planet clean green Tasmania is fast becoming the 'coolest destination in Australia.' The landscape is stunning (40% of the state is national parks), the climate temperate – not too hot or too cold, cities are compact and vibrant and there is no pollution and overcrowding. And students will find a welcoming community and a State government that actively encourages international students, skilled migrants and visitors to Tasmania.

Access is no problem. Students can get to Tasmania from Melbourne (1 hour flying time), Sydney (1.5 hours flying time) or Brisbane (2.5 hours flying time) using one of five budget and full service airlines that service the state.

“ The 2016 Good Universities' Guide awarded us with a five star rating for research intensity and student retention placing us amongst the best in Australia ”

Achieve the extraordinary

As the only university in the State of Tasmania we offer a wide range of discipline areas for undergraduate and postgraduate coursework programs across six faculties and three specialist institutes:

- **Arts:** Humanities, Social Sciences and the Tasmanian College of Creative Arts
- **Business:** Accounting and Corporate Governance, Finance and Economics, and Management
- **Education:** including early childhood, primary, secondary applied learning and physical activity studies
- **Health:** Medicine, Pharmacy, Nursing and Midwifery, Psychology and Human Life Sciences
- **Law:** with combined degrees including Arts/Law, Business, Law, Science/Law, Economics/Law and Information Communications Technology/Law
- **Science, Engineering and Technology:** Agricultural Science, Architecture and Design, Chemistry, Information and Communication Technology, Earth Sciences (Geology), Engineering, Geography and Environmental Studies, Mathematics and Physics, Plant Science and Zoology
- **Australian Maritime College:** with National Centres in Marine Conservation and Resource Sustainability; Maritime Engineering and Hydrodynamics; Ports and Shipping
- **Institute for Marine and Antarctic Studies;** and
- **Menzies Institute for Medical Research**

Entry Requirements – Academic

Admission to undergraduate courses at UTAS requires qualifications equivalent to the 12th year of schooling in Australia and our website lists countries and their academic qualifications that meet the University's minimum entry requirements. Academic entry requirements vary between courses and at undergraduate level are assessed using the Australian Tertiary Admission Rank (ATAR) score. Some courses have additional prerequisites (i.e. medicine – surgery) and applicants applying for programs with a high ATAR scores like Pharmacy, Medicine, combined Law, etc, would need higher entry marks.

Students who need to upgrade their academic skills to meet entry requirements for an undergraduate degree can enrol in the University's Foundation Studies Program (FSP). Successful completion of FSP gives direct entry to all undergraduate degree courses.

Most postgraduate Masters Courses require an Australian bachelor degree or equivalent, which for some courses (such as engineering or computing) will need to be in an approved or relevant discipline. Alternative entry pathways such as periods of relevant work experience are also available for some courses.

Entry Requirements – English

For those applicants who are nationals of and currently residing in a country where English is NOT the official language, evidence of an IELTS or TOEFL or other recognised English language test must be provided. Alternatively, applicants can provide evidence that English has been the sole medium of instruction and examination in their most recent studies, for a minimum of 2 years, and within the last 24 months. Academic transcripts and a letter from your institution will be required. Those applicants who are nationals of and currently residing in a country where English is the official language, may be exempt from the 2 year validity period.

Undergraduate Programs

Most of our undergraduate programs have the following English language requirements.

- IELTS (Academic) - 6.0 (no individual band less than 5.5)
- TOEFL (PBT) 550 TWE 4.5; TOEFL (iBT) 80 (no score below 20)
- PTE Academic 50 with no score lower than 42
- UTASAccess-English Lev 6 - 60% (no individual score less than 55%)
- Cambridge CAE (Certificate of Advanced English) - B Grade
- Cambridge CPE (Certificate of Proficiency in English) - C Grade
- Cambridge BEC (Business English Certificate) Higher - C Grade

Programs with higher English entry requirements include Medicine/Surgery, Nursing, Education, Social Work, Law and Pharmacy.

Postgraduate Programs

Most of our postgraduate programs including Graduate Certificate, Graduate Diploma and Masters by coursework degrees have the following English language requirements.

- IELTS (Academic) - 6.0 (no individual band less than 6.0)
- TOEFL (PBT) 575 TWE 4.5; TOEFL (iBT) 88 (no score below 20)
- PTE Academic 50 with no score lower than 50
- UTASAccess-English Lev 7 - 60% (no individual score less than 60%)
- Cambridge CAE (Certificate of Advanced English) - B Grade
- Cambridge CPE (Certificate of Proficiency in English) - C Grade
- Cambridge BEC (Business English Certificate) Higher - C Grade

Exceptions include Business Administration & Management (Inc. MBA's), Environmental Planning and Management, Education, Journalism, Media and Communications, Social Work, Clinical Psychology, Teaching.

A home away from home

The University has a wide range of accommodation options available for students at the Hobart and Launceston campuses. You won't be disappointed with the choices available.

Campus facilities and Accommodation

Approximately 60% of The University's student population is based in the main Hobart campus with significant numbers of international students at the two Launceston campuses – Newnham (home of the AMC) and Inveresk.

We are currently completing a \$564 million capital works program⁶ which includes new medical and performing arts precincts, a new Institute for Marine and Antarctic Studies and new student accommodation in the two Launceston campuses and Hobart's CBD.

On campus accommodation is currently available between \$171 and \$213/week. Accommodation fees give you access to a single room with shared kitchen & bathroom facilities, 24 hour security and extra tutorials as required in a range of subjects.

Wi-Fi is also provided (for an additional cost) and student can prepare their own meals or enjoy a wide range of food options (including Halal and vegetarian) at restaurants onsite. We can also assist with arranging accommodation off campus.
